

INTRODUCING HAVAC. THE NEXT BEST PERSONAL COMPUTER

If you're buying a personal computer for the first time, you don't need the biggest and brightest to begin with.

Think simple.

Sensibly priced.

Less than \$850.

Of course, you'll want some initial training to get you started. The Havac comes with its own disk operating system and "Training" software like Typewriter, Calculator and Havacom for communications. And once you've mastered the basics, you can use software from the largest selection in the world.

Apple® Software.

Game-like computers that are comparably priced can't offer software like Havac can. But if games are your bag, Havac has a Joystick/Paddle port. And a port for RS-232C, Parallel/Serial printer or an additional disk drive. Which we also make. Havac already has one disk drive built in.

So, if the biggest and brightest are beyond your budget, take a look at The Next Best Personal Computer.

The Havac from
MICROSCI.
